We invite you to join the "InnoCulture Conference" in Gdańsk on November 19 and 20, 2024.

The conference is an excellent opportunity for Baltic Sea Region actors in the field of culture to network and explore how culture and innovation connect. The conference will emphasise the significance of culture as both a factor and a catalyst for innovation. It will then concentrate on cultural activities and projects that span different sectors, exploring their potential and opportunities.

We're hoping to welcome participants from projects around the Baltic Sea Region and invite all stakeholder from the field of culture and creativity interested in broadening their horizon towards transnational cooperation.
